J P N National Centre of Excellence in the Humanities, IIT Indore

We are hiring a webdeveloper !

We are seeking a talented and motivated Web Developer to join our team for an exciting project focused on building the web interfaces for the **Indian Electronic Literature Anthology Volume II** and a new **Digital Humanities Journal**. This role involves close collaboration with our editorial team to create seamless, engaging, and functional web experiences.

Position Details:
- Duration: 6 months
- Salary: ₹40,000 per month
- Work Location: Flexible, with the option for remote working
- Start Date: Immediate

Key Responsibilities:
- Design and develop the web interfaces for the Indian Electronic Literature Anthology Volume 2 and the Digital Humanities Journal, focusing on usability and aesthetics.
- Work closely with the editorial team to ensure seamless content integration, including multimedia elements such as text, images, audio, and video.
- Implement interactive features, intuitive navigation, and search functions tailored for users engaging with digital literature and scholarly content.
- Ensure the websites are responsive, accessible, and optimized for both desktop and mobile use.
- Set up content management tools to facilitate easy updates and content management for both platforms.

Requirements:

- Educational Qualifications: Master's in Computer Science Engineering, Data Science, or allied fields.
- Experience:
  - At least 3 years working on projects involving web interface development and relational databases.
  - Familiarity with editorial management systems is essential.
  - Ability to collaborate effectively with the editorial team, incorporate feedback, and attention to detail, and meet deadlines.
- Age Limit: maximum 35 years.

Technical Skills Needed:

- Proven experience in web development, with strong skills in HTML, CSS, and basic JavaScript.
- Experience with Open Journal Systems (OJS) for managing academic journals is a significant advantage.
- Familiarity with UI/UX design principles and the ability to create user-friendly, responsive designs.
- Experience with digital literature or digital humanities projects is a plus.

What We Offer:

- The opportunity to work on two cutting-edge digital humanities projects at IIT Indore.
- A collaborative environment where your technical expertise will directly influence the user experience of an anthology and a journal, impacting scholars and readers worldwide.
- Remote working options and flexible hours to support a healthy work-life balance.
- The chance to expand your knowledge and skills with specialized platforms like Open Journal Systems (OJS) and work with multimedia-rich content and academic publishing tools.
- Networking opportunities with academics, in the digital humanities.
- Potential for future collaborations or based on project needs and performance.

How to Apply:

Interested candidates can send their resumes, portfolios, and brief cover letters to **jpncentre@iiti.ac.in** with the subject line "Web Developer Application—[Your Name]."

- Portfolio Expectations: Please include examples of previous web development projects, especially those involving content management systems (CMS), user interface (UI) design, or responsive websites. Projects demonstrating your ability to work with academic platforms or multimedia content will be highly valued. If you have experience with Open Journal Systems (OJS) or similar platforms, please highlight this in your portfolio.

- Shortlisting & Interviews: Shortlisted candidates will be invited for an interview to discuss their experience, approach to web development, and how they envision contributing to these projects.

- **Submission Deadline: The last date for submission is 5th December 2024.**
